4 + 1 = 2

That's NOT a typo!

Computer Science has an "accelerated admission" to its M.S. degree program. This allows eligible undergraduate seniors to take up to 12 credit hours that count towards their Bachelors degree **AND** towards the requirements of a Masters of Science degree.

With 12 hours of graduate work completed, a student can finish the M.S. program in as little as one extra year.

4 yrs. + 1 yr. = 2 degrees!
