Opportunities for student involvement and leadership

	Women in Computer Science (WICS) The purpose of the Women in Computer Science organization is to support and encourage women who are in technical majors, give them opportunities to learn outside the classroom, and build a strong supportive community.
	Appalachian Society for Computing, Informatics, and Innovation (ASCII) ASCII is a computer science club dedicated to creating a community for fresh and experienced CS majors, as well as anyone interested in Computer Science. Additionally, ASCII works to expand the CS skill set of its members, and assists in finding opportunities for them.
	Linux @ App Linux club is a group of open source advocates who enjoy discussing all things Linux. We have weekly meetings on Wednesday nights in which people of all skill levels are welcome. Our meetings often include relevant discussions of new technologies and provide opportunities to discuss members' questions and concerns with their current computing environments.
	Programming Contest The ACM International Collegiate Programming Contest (ICPC) is a multitier, team-based, programming competition operating under the Association for Computing Machinery(ACM). In 2018, an ASU team competed at the ACM Regional Contest at Duke University. The team earned 5th place at the site and ranked 21st among more than 160 teams.

Opportunities for student involvement and leadership

	MAGIC Capture the Flag Cybersecurity Competition MAGIC is working to close the gap of needed cybersecurity professionals by increasing students' interest in cybersecurity. In 2018, six ASU students competed in the MAGIC competition earning an impressive 6th place among the 46 participating teams.
	Video Game Development Club (VGDC) VGDC is a club for software developers interested in learning the technologies used by game developers and applying that knowledge to the development of new video games.
	Association of Information Technology (AITP) AITP provides students with opportunities to develop friendships and contacts at all levels of AITP and the Information Technology industry as well as opportunities to attend National and Regional Conferences.
	Nerd Network Nerd Network is a club dedicated to helping folks with all kind of nerdy hobbies and interests find other friendly people who like the same things. Nerd Network hosts several nerdy themed events throughout the year as well as a free one day convention on campus called NerdCon.
