Ryan Belt is this week’s student of the week. Ryan joined the academy as a sophomore in Fall 2008. He graduated from the program in the spring of 2010 and is now serving as a peer mentor in computer science. Ryan is currently working towards a degree in computer science, which also happens to be his favorite subject to study.

Ryan is from Candler, NC and attended both Liberty and Enka High School. He graduated high school in 2008. Ryan enjoys soccer, video games, programming, backpacking, biking, camping, and disc golf.

As a student in the academy, Ryan’s most memorable moment was when he was able to work on the “Clock It” project. When asked about his overall experience in the academy Ryan stated that, “It was an excellent, worthwhile experience with hands on and real world research.” Upon completion of his computer science degree, Ryan hopes to return to ASU for the master’s program.
