Jonathan Suits is this week’s student of the week. Jonathan joined the academy in the fall of 2011 after being a member of the Summer Bridge Program in the summer of 2011. He is in the Mathematics research cluster working with Dr. Klima and he is currently seeking a degree in Mathematics. Jonathan is from Indian Trail, NC and he graduated from Metrolina Christian Academy in 2011. His favorite subject any Mathematics and he is a huge fan of music, but he only listens to music that is in Japanese because he is a vocaloid fan.

His most memorable moments as a student in the Academy thus far have been meeting all the people around App that he would not have met otherwise. Jonathan also is happy to have met a lot of the professors that he has or will be learning from before having them in class. When asked to provide a quote about his experience in the academy, he said “Get to know the professors in the academy, you might end up needing help with something from them on day and of course they are great people to get to know as well.” Jonathan hopes to get a job after graduation but does not know what direction that will take yet.

WEEK OF 9/9/12 – 9/15/12
