Carley Brunton is this week’s student of the week. Carley joined the academy in the fall of 2010. She is working with Dr. Taubman in the chemistry research cluster. Carley is currently working towards a degree in forensic chemistry. Science is her favorite subject to study.

Carley is from Holly Springs, NC. She attended Holly Springs High School and graduated in 2010. Carley danced for 14 years and is considering trying out for the ASU dance team. Carley enjoys listening to music, especially Jack Johnson. Her favorite movie is Finding Nemo and she loves wearing sweatpants.

As a student in the academy, Carley’s most memorable moment was during the summer bridge program. She went on a road trip to a challenge course. Carley and her group had to do many different tasks, which all involved teamwork. She will never forget the giant ropes course and the wall. When asked to provide a quote about her overall experience in the academy Carley stated, “the academy is a great way to meet new people, get a head start on research, and get your science brain working!” Upon completion of her chemistry degree, Carley plans to get a master’s degree, get a good paying job, and move to the beach.

WEEK OF 1/31/11 – 2/6/11
