

Step 2: Experiences in the Mathematical Sciences.

Each of us has had many different kinds of experiences when it comes to learning and doing mathematics.

I like math because...?

Add a sticky note to the poster board telling us why you like math.

What has been your own favorite math experience?

For example, did you have a favorite teacher? Did you do really well on a test or participate in a math competition? Is there a particular math concept that really makes sense to you? Write down your favorite here.

Learn about women mathematicians and what they do.

What was an interesting or surprising story that someone told?

This patch was originally created by women faculty in the Department of Mathematical Sciences at Appalachian State University.

At Appalachian, students can get a degree in one of many major areas.
