

Step 2: Experiences in the Mathematical Sciences.

Each of us has had many different kinds of experiences when it comes to learning and doing mathematics.

I like math because...?

Add a sticky note to the poster board telling us why you like math.

What has been your own favorite math experience?

For example, did you have a favorite teacher? Did you do really well on a test or participate in a math competition? Is there a particular math concept that really makes sense to you? Write down your favorite here.

Learn about female mathematicians.

Was there an interesting story that someone told? Was there anything that surprised you? Write down one or two.
