

Try it out!
Practice
algebraic
computations

Review and
understand
mistakes and
misconceptions

Apply algebra
to numerous
real-world
situations in
finance

If you finish the individual component early, turn it in up front and proceed with the group component on your own until I announce group time and collect any remaining part 1s.

- ...the tests will be so much easier if you actually do the homework.
- If you put what you know you aren't sure of on the sheet, it'll help you study it as well as being a handy reminder for the actual test.

study guide, partial sample test, review activities

I care about you and your success!
