

Schedule, Assignment Types, Grades, and Using Feedback

Aside from the face-to-face activities, there is daily work each day at your own pace all due at or before 9am the next day M–F. You can work ahead. Making mistakes is integral to the learning process—the key is to try to continue to engage rather than give up and you’ll have multiple chances to get feedback and revise. It is on purpose that there are problems that don’t look exactly like what we did previously in order to provide you with rich settings to explore in order to learn deeply.
