Timed handwrites are completed and turned in during our synchronous class. Begin assignments and major assignments have strict deadlines of 9:50am the next academic day. All other activities are those you should attempt for completion by then, but you'll have 2nd chances that remain open until closer to the corresponding video project. Some days are lighter than others and it will help you to progress on upcoming activities in advance, especially major assignments. Plan to spend 3.5–5 hours between classes, on average, as per the University-wide Statement on Student Engagement with Courses (while we don't meet synchronously for the third hour, its time in and out of class are a part of this computation).
