

- Can only use your 2.5”x3” tiny reference card and standalone ear plugs
- Individual component ends after 30 minutes and must be turned in by then. Exam ends by end of class
- If you finish the individual component early, pull off that page and turn it in up front. Then proceed with the group component on your own until I announce “group time” and collect any remaining. You may leave early if you finish both parts
- The idea is to have silence for a good portion before we switch to “group time”

I'm rooting for you!
