

History of LaTeX

- Disappointing galley proofs
- TeX was created by Donald Knuth of in 1977
- LaTeX was written by Leslie Lamport in 1985

I had spent 15 years writing those books, but if they were going to look awful I didn't want to write any more.

Knuth Reward Check

- Reward for coding, technical, historical or other errors in his books and programs

Knuth Reward Check

- Reward for coding, technical, historical or other errors in his books and programs
- One hexadecimal dollar

History of Mathematical Reviews

- Letters (Marin Mersenne ~200 correspondants) vs. email/arxiv
- Published papers, *Zentralblatt für Mathematik* (1931) and *Mathematical Reviews* (1940) and electronic versions (1980s)
- In 2011 *MathSciNet* > 2.6 million items
- In 2011 *Zentralblatt MATH* > 3 million items from over 3500 journals and 1100 serials dating back to the 1800s.
