## Anonymous Advice for Next Semester Survey

1.

What suggestions would you give to students taking this course next year? I will read your advice (aside from possibly editing the wording for a professional classroom environment!)

#	Response
1	Keep up with the schedule online with your assignments for next class period.
1	I enjoyed all of the discussion and the work load isn't too bad.
1	Join in on the discussions
1	Make sure you do the work assigned!
1	Do your work and come to class.
1	Do not wait to do the projects till the last night.
1	Do the readings for class
1	Participate in class everyday Make reflections and discussion questions very thorough
1	This course is a fun course to take for your FYS. I would recommend taking the three projects more seriously than I did; after the first project I found out how much they can hurt your grade.
1	I would suggest taking the time to do the work, and not waiting until the last minute. If you do the work, you will get a good grade in this course.

1	Participate every class.
1	Do not procrastinate on the research projects and keep a regular checking period of the syllabus. Also, have an open mind and participate in class. It makes it fun.
1	honestly just work hard
1	read the material before the night prior to class.
1	Dr.Sarah is a great professor and you will definitely enjoy the class. Make sure you turn in your assignments on time and that they are completed (there really isn't that much work).
1	Even if you are quiet, try to say something in almost every discussion.
1	Talk during class to get a good grade.
1	PARTICIPATE
1	Procrastination kills.
1	I would tell them that this class is interesting because you get to choose what you talk about in debates you just have to participate

2. Rate the course topics/activities via whether you found them at all important, enjoyable or interesting using the following scale:

1. Definitely Not
2. Somewhat Not
3. Neutral
4. Somewhat
5. Definitely
