Blackwell, David; Diaconis, Persi A non-measurable tail set. Statistics, probability and game theory, 1--5, IMS Lecture Notes Monogr. Ser., 30, Inst. Math. Statist., Hayward, CA, 1996.

Blackwell, David Operator solution of infinite  $\epsilon$  games of imperfect information. Probability, statistics, and mathematics, 83--87, Academic Press, Boston, MA, 1989.

60040 Blackwell, David; Mauldin, R. Daniel Ulam's redistribution of energy problem: collision transformations. Lett. Math. Phys. 10 (1985), no. 2-3, 149--153.

Blackwell, David; Dubins, Lester E. An extension of Skorohod's almost sure representation theorem. Proc. Amer. Math. Soc. 89 (1983), no. 4, 691--692. 60B10

Blackwell, David; Maitra, Ashok Factorization of probability measures and absolutely measurable sets. Proc. Amer. Math. Soc. 92 (1984), no. 2, 251--254.

Blackwell, David; Girshick, M. A. Theory of games and statistical decisions. Reprint of the 1954 edition. Dover Publications, Inc., New York, 1979. xi+355 pp. ISBN: 0-486-63831-6 90D35 (62Cxx)

Blackwell, David On stationary policies. With discussion. J. Roy. Statist. Soc. Ser. 133 (1970), no. 1, 33--37. 90C40

Blackwell, David The stochastic processes of Borel gambling and dynamic programming. Ann. Statist. 4 (1976), no. 2, 370--374.

Blackwell, David; Dubins, Lester E. On existence and non-existence of proper, regular, conditional distributions. Ann. Probability 3 (1975), no. 5, 741--752.

Blackwell, David; MacQueen, James B. Ferguson distributions via Pólya urn schemes. Ann. Statist. 1 (1973), 353--355.

Blackwell, David; Freedman, David On the amount of variance needed to escape from a strip. Ann. Probability 1 (1973), 772--787.

Blackwell, David Discreteness of Ferguson selections. Ann. Statist. 1 (1973), 356--358.

Blackwell, David; Dubins, Lester An elementary proof of an identity of Gould's. Bol. Soc. Mat. Mexicana (2) 11 1966 108--110.

Blackwell, David; Freedman, David On the local behavior of Markov transition probabilities. Ann. Math. Statist. 39 1968 2123--2127.

Blackwell, David A Borel set not containing a graph. *Ann. Math. Statist.* 39 1968 1345--1347.

Blackwell, David; Ferguson, T. S. The big match. *Ann. Math. Statist* 39 1968 159--163.

Blackwell, David Infinite games and analytic sets. *Proc. Nat. Acad. Sci. U.S.A.* 58 1967 1836--1837.

Bickel, Peter J.; Blackwell, David A note on Bayes estimates. *Ann. Math. Statist.* 38 1967 1907--1911.

Blackwell, David Positive dynamic programming. 1967 *Proc. Fifth Berkeley Sympos. Math. Statist. and Probability* (Berkeley, Calif., 1965/66), Vol. I: Statistics pp. 415--418 Univ. California Press, Berkeley, Calif.

Blackwell, David; Kendall, David The martin boundary of Pólya's urn scheme, and an application to stochastic population growth. *J. Appl. Probability* 1 1964 284--296.

Blackwell, David; Dubins, Lester E. On existence and non-existence of proper, regular, conditional distributions. *Ann. Probability* 3 (1975), no. 5, 741--752.

Blackwell, David; MacQueen, James B. Ferguson distributions via Pólya urn schemes. *Ann. Statist.* 1 (1973), 353--355.

Blackwell, D.; Freedman, D.; Orkin, M. The optimal reward operator in dynamic programming. *Ann. Probability* 2 (1974), 926--941.

Blackwell, David; Freedman, David On the amount of variance needed to escape from a strip. *Ann. Probability* 1 (1973), 772--787.

Blackwell, David Discreteness of Ferguson selections. *Ann. Statist.* 1 (1973), 356--358.

Blackwell, D. Infinite  $\epsilon$ -games with imperfect information. *Zastos. Mat.* 10 1969 99--101.

Blackwell, David; Dubins, Lester An elementary proof of an identity of Gould's. *Bol. Soc. Mat. Mexicana* (2) 11 1966 108--110.

Blackwell, David; Freedman, David On the local behavior of Markov transition probabilities. *Ann. Math. Statist.* 39 1968 2123--2127.

Blackwell, David A Borel set not containing a graph. *Ann. Math. Statist.* 39 1968 1345--1347.

Blackwell, David; Ferguson, T. S. The big match. *Ann. Math. Statist* 39 1968 159--163.

Blackwell, David Infinite games and analytic sets. *Proc. Nat. Acad. Sci. U.S.A.* 58 1967 1836--1837.

Bickel, Peter J.; Blackwell, David A note on Bayes estimates. *Ann. Math. Statist.* 38 1967 1907--1911.

Blackwell, David Positive dynamic programming. 1967 *Proc. Fifth Berkeley Sympos. Math. Statist. and Probability (Berkeley, Calif., 1965/66)*, Vol. I: Statistics pp. 415--418 Univ. California Press, Berkeley, Calif.

Blackwell, David; Kendall, David The martin boundary of Pólya's urn scheme, and an application to stochastic population growth. *J. Appl. Probability* 1 1964 284--296.

Blackwell, David Discounted dynamic programming. *Ann. Math. Statist.* 36 1965 226--235.

Blackwell, David; Freedman, David A remark on the coin tossing game. *Ann. Math. Statist* 35 1964 1345--1347.

Blackwell, D.; Deuel, P.; Freedman, D. The last return to equilibrium in a coin-tossing game. *Ann. Math. Statist* 35 1964 1344.

Blackwell, David; Freedman, David The tail  $\sigma$ -field of a Markov chain and a theorem of Orey. *Ann. Math. Statist.* 35 1964 1291--1295.

650 Blackwell, David Probability bounds via dynamic programming. 1964 *Proc. Sympos. Appl. Math.*, Vol. XVI pp. 277--280 Amer. Math. Soc., Providence, R.I.

Blackwell, David Memoryless strategies in finite-stage dynamic programming. *Ann. Math. Statist.* 35 1964 863--865.

Blackwell, David; Dubins, Lester E. A converse to the dominated convergence theorem. *Illinois J. Math.* 7 1963 508--514.

Blackwell, David Discrete dynamic programming. *Ann. Math. Statist.* 33 1962 719--726.

Blackwell, David; Dubins, Lester Merging of opinions with increasing information. *Ann. Math. Statist.* 33 1962 882--886.

Blackwell, David; Dubins, Lester E. Sharp bounds on the distribution of the Hardy-Littlewood maximal function. *Proc. Amer. Math. Soc.* 14 1963 450--453.

Blackwell, D.; Ryll-Nardzewski, C. Non-existence of everywhere proper conditional distributions. *Ann. Math. Statist.* 34 1963 223--225.

Blackwell, David Minimax and irreducible matrices. *J. Math. Anal. Appl.* 3 1961 37--39.

Blackwell, David Exponential error bounds for finite state channels. 1961 *Proc. 4th Berkeley Sympos. Math. Statist. and Prob.*, Vol. I pp. 57--63 Univ. California Press, Berkeley, Calif.

Blackwell, David Information theory. 1961 Modern mathematics for the engineer: Second series pp. 182--193 McGraw-Hill, New York

Blackwell, David; Breiman, Leo; Thomasian, A. J. The capacity of a certain channel classes under random coding. Ann. Math. Statist. 31 1960 558--567.

Blackwell, David; Breiman, Leo; Thomasian, A. J. The capacity of a class of channels. Ann. Math. Statist. 30 1959 1229--1241.

Blackwell, David Infinite codes for memoryless channels. Ann. Math. Statist. 30 1959 1242--1244.

A3386 Blackwell, David On the functional equation of dynamic programming. J. Math. Anal. Appl. 2 1961 273--276.

Blackwell, David; Breiman, Leo; Thomasian, A. J. Proof of Shannon's transmission theorem for finite-state indecomposable channels. Ann. Math. Statist. 29 1958 1209--1220.

Bell, C. B.; Blackwell, David; Breiman, Leo On the completeness of order statistics. Ann. Math. Statist. 31 1960 794--797.

3052 Blackwell, David; Hodges, J. L., Jr. The probability in the extreme tail of a convolution. Ann. Math. Statist. 30 1959 1113--1120.

Blackwell, David The entropy of functions of finite-state Markov chains. 1957 Transactions of the first Prague conference on information theory, Statistical decision functions, random processes held at Liblice near Prague from November 28 to 30, 1956 pp. 13--20 Publishing House of the Czechoslovak Academy of Sciences, Prague

Blackwell, David; Koopmans, Lambert On the identifiability problem for functions of finite Markov chains. Ann. Math. Statist. 28 1957 1011--1015.

Blackwell, David Another countable Markov process with only instantaneous states. Ann. Math. Statist. 29 1958 313--316.

Blackwell, David; Hodges, J. L., Jr. Design for the control of selection bias. Ann. Math. Statist. 28 (1957), 449--460. (Reviewer: D. G. Chapman) 62.0X

19,467d Blackwell, David On discrete variables whose sum is absolutely continuous. Ann. Math. Statist. 28 (1957), 520--521.

Blackwell, David Controlled random walks. Proceedings of the International Congress of Mathematicians, 1954, Amsterdam, vol. III, pp. 336--338. Erven P. Noordhoff N.V., Groningen; North-Holland Publishing Co., Amsterdam, 1956.

- Blackwell, David On a class of probability spaces. Proceedings of the Third Berkeley Symposium on Mathematical Statistics and Probability, 1954--1955, vol. II, pp. 1--6. University of California Press, Berkeley and Los Angeles, 1956.
- Blackwell, David An analog of the minimax theorem for vector payoffs. Pacific J. Math. 6 (1956), 1--8.
- Blackwell, David On transient Markov processes with a countable number of states and stationary transition probabilities. Ann. Math. Statist. 26 (1955), 654--658.
