Getting to know a scholar: Shandon Anderson
September 9 - September 15

Background: Shandon Anderson is from Charlotte, NC where he attended East Mecklenburg High School. He is majoring in Computer Science and his favorite subject is "systems hands-down." He enjoys collecting hats and eating at "hidden" restaurants. He decided to major in Computer Science because "I never want to stop learning and in CS there is always something new to learn." As far as choosing ASU, "It was actually my third choice, long story, but I am glad that I made this university my home.'
