

Getting to know a scholar: Zoe Upchurch February 3 - February 9

Background: Zoe Upchurch is from King, NC. She attended West Stokes High School, where she graduated in 2017. She is majoring in Computer Science, and her favorite subject is math. Zoe decided to major in computer science because “I’ve always loved games and been interested in coding, though had never done anything with it.” Outside of school, Zoe enjoys playing video games and tabletop games, as well as drawing, writing, reading, and watching videos on the internet. As far as choosing ASU, “..App’s music ed program is the best in the state. So I came up for Cannon Music Camp, met a lot of professors and everything and just absolutely fell in love with it. The campus, the atmosphere, Boone - it’s all great and I couldn’t be happier.”
