

Getting to Know a Scholar: 9/14-9/20/15

Background: **Scott Shuffler** is from Lexington, NC where he attended West Davidson High School where he graduated from in 2008. He is majoring in Computer Science and his favorite subject is Embedded Systems. He enjoys watching movies, drinking coffee, seeing aquariums, working with computers, and motorcycles. His mother helped him decide on pursuing Computer Science, since he couldn't decide between Computer Science, being a pilot, and Zoology. He chose ASU because of the cold weather, being away from his hometown, and the mountains in the area.
