

Self-Paced Labs

help each with the lab, solidify the material & make connections

- Take out handwrite from the course packet and open ASULearn. I recommend you work together
- I'm happy to help although I need to continue social distancing—I'll periodically write on the front board!

optional:

- share your screen with me in Zoom (access it from the need help forum and **mute to avoid feedback**)
- Zoom chat—let me know if you are stuck or ask questions
- stand up (so I can hopefully see and hear you) and ask me

If finished early, you can scan the lab to a PDF to submit it in the ASULearn assignment or leave to submit it later. It is part of the homework due tomorrow on ASULearn.
